Betsy and Sandy – here is the updated table that includes Region 8 sites. I’m still waiting on a response from Steve but both Stan and Joe have reviewed.

Thanks Fran!

Everyone – please take a few minutes today to look at the Region 8 information provided. We need to get this completed soon, so please review the language and any additional recommendations (#’s) we can include would be really helpful. Thanks in advance.

Hi all...I took a stab at responding to this, but I did guess at the recommendations at times. Also, you may want to tweak some of my reasons for including. For example, I know Anaconda and Silver Bow are special emphasis sites (Rec 1), but I’m not certain of other recommendations that may apply, though I guessed at Rec 16, assistance with protracted negotiations. Please update/correct as needed.

Rob...I didn't know of any FF ones, but please add if you do!

These were in no special order, just as it occurred to me as I was reading the task force recommendations. Remember you can read the summary of the recommendations at: <https://www.epa.gov/superfund/superfund-task-force-status-recommendations>

Hope these are enough! Let me know if you have questions. But I am at Universal Studios on Tuesday. 😊

All,

Please see the email chain below for a short turn around request – this Friday! Looks like things have been floating around since March but I just got this yesterday. I'm trying to clarify what exactly is needed from us.

To make is simple we should plan on just providing site names with one bullet about the site. We can then just add recommendation #'s next to the bullet for all the recommendations that apply.

Also, I clicked the link and I didn't have permission so I'm trying to get permission this morning.

Sandy,

I'm trying to clarify what is exactly needed, the request is for case studies (regional sites) with activities since July 2018 that provide a success story under each Superfund task force recommendation?

Also – is it your understanding that the recommendations they're referring to are just the 5 overarching goals or all 42 specific recommendations? I tried to check the linked table but I don't have access.

I just want to ensure I request the right information from the Unit Chiefs since we're on such a tight time line and everyone is really busy.

Aaron please work with the section chiefs to get something to Betsy/me by the end of this week. Betsy is pushing back on Jim on the first deadline especially since Andrea is not here this week. Thanks.

Part 2

Please populate the "SFTF 2019 Case Studies" table [here](#) with examples of successes for each recommendation that could be included in the July 2019 SFTF final annual report.

- a. Include case studies for both ongoing and completed recommendations.
- b. Case studies can address more than one recommendation.
- c. Sites with activities since July 2018 preferred (in the 2nd year of the task force).
- d. Please identify at least one case study per recommendation by the week of March 25th so that we can discuss at our OSRTI internal SFTF meeting on April 1st.
